*truescience® liquid collagen activates natural collagen synthesis by upregulating genes involved in skin barrier health, antioxidant production and collagen product TGM1, KRT1, KRT10 by 5x. SOD gene is activated 2700%. Catalase gene is activated up to 202%. COL1A2 gene (type 1 collagen production) is increased by up to 42%.

**truescience® liquid collagen decreases the MMP9 gene by 33% which degrades and remodels collagen.

***price varies based on one time order, subscription, or consultant pricing, and customer loyalty rewards.
